Q-3. Reading Comprehension (5)

The Busy Bee

A bee is a small and hardworking insect. It lives in a hive with many other bees. Every morning, the bee flies from flower to flower and collects nectar. It takes the nectar back to the hive to make honey.

Bees also help flowers and plants grow. Every bee has a special job in the hive. They work together to keep their home clean and safe.

Bees teach us to be **hardworking, helpful and cooperative**.

Choose the correct answer:

(i) What kind of insect is a bee?

(a) Big and lazy (b) Small and hardworking (c) Giant and idle

(ii) Where does a bee live?

(a) Underwater (b) Hive (c) Nest

(iii) What does a bee collect from flowers?

- (a) Nectar (b) Milk (c) Jelly

(iv) How do bees help plants?

- (a) They help flowers and plants grow. (b) They destroy all plants. (c) They steal life energy.
